Frame(s) Count based Grouping

Standard Frame Layout

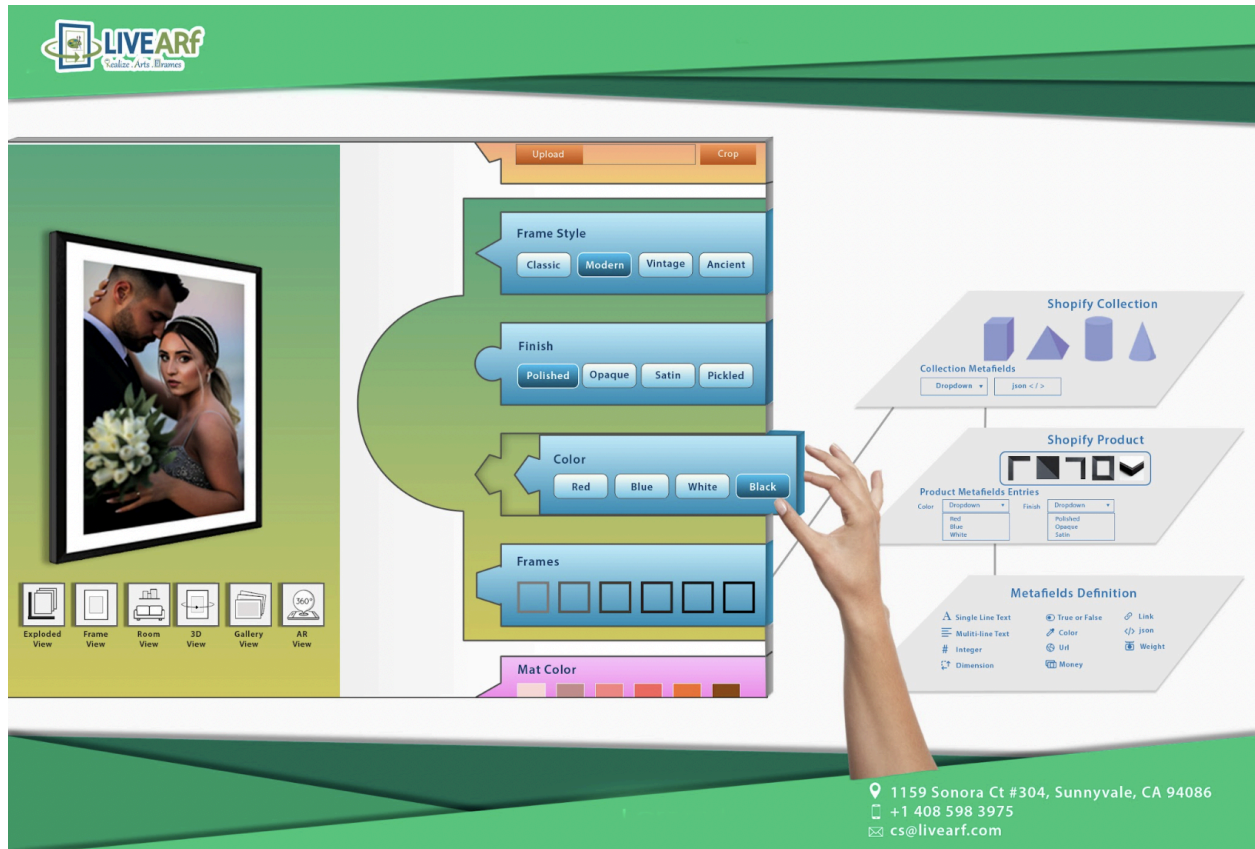

This layout is suitable for sellers with limited frames. The buyer can see all the available frames in the product page. The user can directly choose the Frame Style, Mat Size, Mat Color etc. Buyers can view the virtual image on the left after selecting their preferred options

Implemented Customers	
Historic Pictoric	UpState NewYotk , USA
Replicarte Brazil	Brazil
The Sentinel Of Zion Zion National Park – Curt Rosner Photography	Midwest USA - Wildlife / Natural Photographer

Frame Group Layout

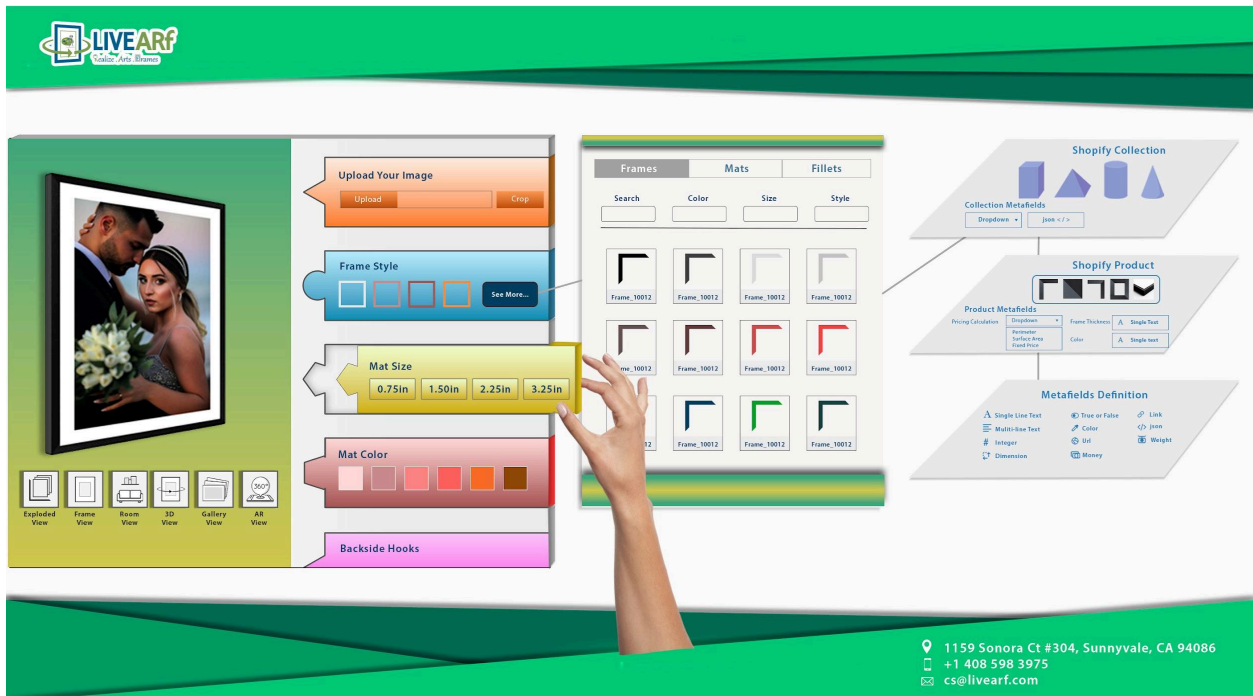

This layout is suitable for sellers who sell a large number of frames. Within this frame group layout, the available finishes and colors specifically for that style will be highlighted for selection upon selecting a frame style. After choosing the desired options, the buyer can view the virtual image on the left.

Implemented Customers	
Frame Group – Fotorecord	Italy, Europe with Multi Language Translation Configured
Start framing – FrameHive	South Africa Customer

Frame Overlay Layout

This layout is also suitable for sellers who sell a large number of frames. Upon selecting “See more” under Frame Style, an overlay option box opens to show all the available frames. A search box allows the buyer to search by SKU or any unique number, filtered by color, size and style options. Buyers can find products by entering the unique number in the search box. Alternatively, buyers can refine their search by selecting specific Color, Style and/or Size using the provided filters. After choosing the desired options, the buyer can view the virtual image on the left.

Image Upload-focused Layouts

Call to Action - Image upload layout

In this layout, buyers can upload the custom image in one click and it will be virtually displayed in all the available frame collections. When any of the frame is clicked, the buyer will be taken to the respective product page.

The screenshot shows the LIVEARF website interface. At the top, there is a navigation bar with 'Logo', 'Browse Frames', 'About', 'Help', and a 'Start Framing' button. Below the navigation bar is a large pink area with an 'Upload Image' button. Underneath, there are three sections for 'Small', 'Medium', and 'Large' frame collections. Each section displays a grid of frame options with a preview image and pricing. A diagram on the right side of the page illustrates the 'Shopify Collection' and 'Shopify Product' metafields structure. The diagram shows a 'Shopify Collection' with 'Collection Metafields' (e.g., 'Dropdown') and a 'Shopify Product' with 'Product Metafields' (e.g., 'Pricing Calculation', 'Product Images', 'Perimeter', 'Surface Area', 'Fixed Price'). Below the diagram is a 'Metafields Definition' section with various field types like 'Single Line Text', 'Multi-line Text', 'Integer', 'Dimension', 'True or False', 'Color', 'Unit', 'Money', 'Link', 'JSON', and 'Weight'.

FramePix Custom Framing	Connecticut, USA

Assorted Artwork Plus CTA

This layout allows the buyer to upload an image at one click in the homepage and it will be virtually displayed in all the available assorted collections. When any of the assorted collection is clicked, the buyer will be taken to the respective product page.

The below image shows the uploaded image in different collections namely Framed with Mat, Framed Canvas, Gallery Wrap, Floater Frame & Acrylic. The image will showcase the realistic look in the corresponding collections.

The screenshot shows the LIVEARF website interface. At the top, there is a navigation bar with 'Logo', 'Browse Frames', 'About', 'Help', and a 'Start Framing' button. Below this is a large pink 'Upload Image' button. The main content area is titled 'Collections' and features five distinct, colorful buttons, each with a circular image of a couple and a specific framing style: 'Frame With Mat' (blue), 'Framed Canvas' (purple), 'Gallery Wrap' (orange), 'Floater Frame' (green), and 'Acrylic' (grey). To the right of the collections, a diagram illustrates the Shopify metafields structure. It shows a 'Shopify Collection' with 'Collection Metafields' (a dropdown menu and a 'json </ >' field), a 'Shopify Product' with 'Product Metafields' (a dropdown menu, 'Product Images' with a 'url' field, and 'Pricing Calculation' with fields for 'Perimeter', 'Surface Area', and 'Fixed Price'), and a 'Metafields Definition' section listing various field types: Single Line Text, Multi-line Text, Integer, Dimension, True or False, Color, Unit, Money, Link, JSON, and Weight.

All In One Art Product Page

Assorted Artworks Layout

In this layout the buyer can choose the type of Display option in the Product page. The virtual framing will be displayed on the left side based on the selected option namely Framed Canvas, Frame Canvas with Liners, Gallery Wrap, Gallery Wrap with Floater Frame, Acrylic.

This below image shows the sample images of the corresponding Display Option.

The screenshot displays the LIVEARF product page interface. On the left, there are circular thumbnails for different display options: Frame With Mat, Framed Canvas, Gallery Wrap, Floater Frame, and Acrylic. Below these are icons for Exploded View, Frame View, Room View, 3D View, Gallery View, and AR View. The central panel contains several interactive elements: 'Image Size (inch)' with buttons for 10 x 20, 20 x 30, 30 x 40, and 40 x 50; 'Display Option' with a dropdown menu listing Framed Canvas, Framed Canvas With Liners, Gallery Wrap, Gallery Wrap With Floater Frame, and Acrylic; 'Frame Style' with a row of color swatches; 'Mat Size' with buttons for 0.75in, 1.50in, 2.25in, and 3.25in; and 'Backside Hooks' with a pink button. On the right, a diagram illustrates the metafields structure: 'Shopify Collection' (Collection Metafields), 'Shopify Product' (Product Metafields), and 'Metafields Definition' (listing various field types like Single Line Text, Multi-line Text, Integer, Dimension, True or False, Color, Uri, Money, Link, Joorn, and Weight).
