## Frame(s) Count based Grouping

### Standard Frame Layout

This layout is suitable for sellers with limited frames. The buyer can see all the available frames in the product page. The user can directly choose the Frame Style, Mat Size, Mat Color etc. Buyers can view the virtual image on the left after selecting their preferred options

## Frame Group Layout

This layout is suitable for sellers who sell a large number of frames. Within this frame group layout, the available finishes and colors specifically for that style will be highlighted for selection upon selecting a frame style.

After choosing the desired options, the buyer can view the virtual image on the left.

The screenshot displays the LIVEARF website interface. On the left, a virtual image of a framed photograph of a couple is shown. Below it are icons for 'Exploded View', 'Frame View', 'Room View', '3D View', 'Gallery View', and 'AR View'. The central panel features a 'Frame Style' dropdown with options: Classic, Modern, Vintage, and Ancient. Below it is a 'Finish' dropdown with options: Polished, Opaque, Satin, and Pickled. The 'Color' dropdown is currently open, showing options: Red, Blue, White, and Black. A hand is pointing at the 'Black' option. Below the color options are 'Frames' and 'Mat Color' sections. On the right, a 'Shopify Collection' section shows 'Collection Metafields' with a dropdown and 'Join </>' button. Below it is a 'Shopify Product' section showing 'Product Metafields Entries' with dropdowns for 'Color' (Red, Blue, White) and 'Finish' (Polished, Opaque, Satin). At the bottom right, a 'Metafields Definition' table is visible:

Metafields Definition	
A Single Line Text	True or False
Multi-line Text	Color
# Integer	URI
Dimension	Money
Link	Join
Weight	

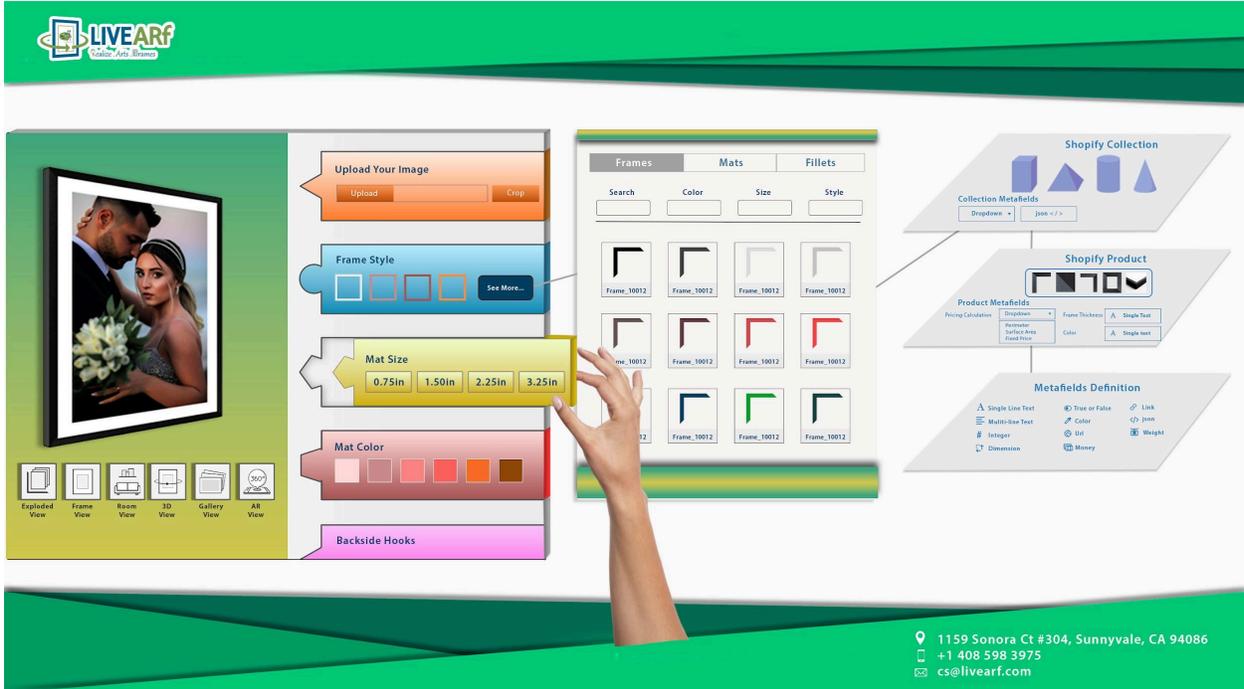

At the bottom right of the page, contact information is provided:

<a href="#">Start framing – FrameHive</a>	South Africa Customer

## Frame Overlay Layout

This layout is also suitable for sellers who sell a large number of frames. Upon selecting “See more” under Frame Style, an overlay option box opens to show all the available frames. A search box allows the buyer to search by SKU or any unique number, filtered by color, size and style options. Buyers can find products by entering the unique number in the search box. Alternatively, buyers can refine their search by selecting specific Color, Style and/or Size using the provided filters. After choosing the desired options, the buyer can view the virtual image on the left.

# Image Upload-focused Layouts

## Call to Action - Image upload layout

In this layout, buyers can upload the custom image in one click and it will be virtually displayed in all the available frame collections. When any of the frame is clicked, the buyer will be taken to the respective product page.

The screenshot displays the LIVEARF website interface. At the top left is the LIVEARF logo with the tagline "Call of Arts Frames". The navigation bar includes "Logo", "Browse Frames", "About", "Help", and a "Start Framing" button. A prominent "Upload Image" button is centered in a pink banner. Below this, three sections are labeled "Small", "Medium", and "Large", each containing a grid of frame options with various styles and prices. To the right, a diagram illustrates the metafield structure:

- Shopify Collection**: Includes a "Collection Metafields" section with a dropdown menu and a "join </>" button.
- Shopify Product**: Includes a "Product Metafields" section with a dropdown menu, "Pricing Calculation", "Product Images", and "set" options.
- Metafields Definition**: Lists various field types such as Single Line Text, Multi-line Text, Integer, Dimension, True or False, Color, URI, Money, Link, join, and Weight.

At the bottom right, contact information is provided: 1159 Sonora Ct #304, Sunnyvale, CA 94086; +1 408 598 3975; and cs@livearf.com.

## Assorted Artwork Plus CTA

This layout allows the buyer to upload an image at one click in the homepage and it will be virtually displayed in all the available assorted collections. When any of the assorted collection is clicked, the buyer will be taken to the respective product page.

The below image shows the uploaded image in different collections namely Framed with Mat, Framed Canvas, Gallery Wrap, Floater Frame & Acrylic. The image will showcase the realistic look in the corresponding collections.

The screenshot displays the LIVEARF website interface. At the top left is the LIVEARF logo with the tagline 'Value Art. Blown'. The navigation bar includes 'Logo', 'Browse Frames', 'About', 'Help', and a 'Start Framing' button. A prominent 'Upload Image' button is centered in a pink banner. Below this, a 'Collections' section features five circular thumbnails, each with a different frame style: 'Frame With Mat' (blue), 'Framed Canvas' (purple), 'Gallery Wrap' (orange), 'Floater Frame' (green), and 'Acrylic' (grey). To the right, a diagram illustrates the data flow: a 'Shopify Collection' (containing 'Collection Metafields' like a dropdown and JSON) feeds into a 'Shopify Product' (containing 'Product Metafields' like pricing calculation, price range, and product images), which then feeds into a 'Metafields Definition' (listing various field types such as Single Line Text, Multi-Line Text, Integer, Dimension, True or False, Color, Unit, Money, Link, JSON, and Weight).

## All In One Art Product Page

### Assorted Artworks Layout

In this layout the buyer can choose the type of Display option in the Product page. The virtual framing will be displayed on the left side based on the selected option namely Framed Canvas, Frame Canvas with Liners, Gallery Wrap, Gallery Wrap with Floater Frame, Acrylic.

This below image shows the sample images of the corresponding Display Option.

The screenshot displays the LIVEARF product configuration interface. On the left, there are circular thumbnails for different display options: 'Frame With Mat', 'Framed Canvas', 'Gallery Wrap', 'Floater Frame', and 'Acrylic'. Below these are icons for 'Exploded View', 'Frame View', 'Room View', '3D View', 'Gallery View', and 'AR View'. The central configuration panel includes:
 

- Image Size (inch):** 10 x 20, 20 x 30, 30 x 40, 40 x 50
- Display Option:** A dropdown menu with options: Framed Canvas, Framed Canvas With Liners, Gallery Wrap, Gallery Wrap With Floater Frame, and Acrylic.
- Frame Style:** A row of five color-coded square options.
- Mat Size:** 0.75in, 1.50in, 2.25in, 3.25in (being selected by a hand).
- Backside Hooks:** A pink bar at the bottom of the configuration panel.

 On the right, a diagram shows the integration with Shopify:
 

- Shopify Collection:** Includes 'Collection Metafields' with a dropdown and a 'json </>' button.
- Shopify Product:** Includes 'Product Metafields' with a dropdown, 'Product Images' with a 'url' field, and 'Pricing Calculation' with fields for 'Percentage', 'Surface Area', and 'Fixed Price'.
- Metafields Definition:** A list of field types: Single Line Text, Multiple Line Text, Integer, Dimension, True or False, Color, Unit, Money, Link, and Weight.
